Riyadh, Saudi Arabia

Skills

Security Operations & Forensics: Root Cause Analysis, Breach Analysis, Forensic Analysis Tools, Security Information and Event Management (SIEM) Tools

Security Assessment: Vulnerability Scanning, Penetration Testing, Ethical Hacking

Governance & Frameworks: Cybersecurity Policy Development, NIST SP 800-53, NIST Cybersecurity Framework

Work Experience

Al Madinah Projects, Al Madinah Jan 2022 - Sep 2022

IT Support Trainee

- Provided first-line IT support for Windows and software issues, troubleshooting common problems and escalating unresolved incidents.
- Set up workstations, installed applications, and supported hardware and peripheral devices.
- Troubleshot basic network connectivity issues.
- Windows, Windows troubleshooting, software installation, workstation setup, hardware and peripheral support, network connectivity troubleshooting

Education

Technical and Vocational Training Corporation Feb 2022 – Feb 2025
Bachelor's Degree in Cybersecurity
Relevant Coursework: Operating Systems, Penetration Testing, Digital Forensics, Computer Networks

Technical and Vocational Training Corporation Jan 2019 – 2022
Diploma in IT Technical Support

Holberton School Oct 2025 – Jul 2026
Foundational Program in Software Engineering / Full Stack Development
Project-based learning in programming, data structures, algorithms, operating systems, and front-end and back-end web development.

Project Work

- **Digital Forensics Graduation Project:** Conducted a digital forensic investigation in a homicide case using FTK Imager and Autopsy.
- **AEGIS v5.0 – Global Peace Intelligence and Conflict Prevention System:** Developed a platform that aggregates near-real-time data from NASA FIRMS, ACLED, GDELT, OpenSky, USGS, and multilingual news feeds. Uses Claude AI to generate 72-hour conflict forecasts and five-tier threat classifications. Includes JWT authentication, email OTP verification, refresh-token rotation, and Redis token blacklisting. Python, FastAPI, PostgreSQL, Redis, Celery, React, TypeScript, Docker, Prometheus, Grafana.
- **SelfLab – Educational Platform:** Contributed as a curriculum designer to a student and teacher platform featuring an automated checker that evaluates student task submissions. React, TypeScript, Express, Prisma, PostgreSQL, JWT.

Awards and Certificates

- **Accredited Technical Associate – Cloud V1** – INE Apr 2025 – Apr 2028
- **eWPT Web Application Penetration Tester** – INE Mar 2025 – Mar 2028
- AWS Educate Machine Learning Foundations – Amazon Web Services Jun 2025
- Introducing Generative AI with AWS – Udacity May 2025
